

Lindokuhle Angel Mazibuko

Address:

Riverside View, Johannesburg, Gauteng

Phone:

081 324 0479

Email:

lindokuhlea38@gmail.com

Summary

Lindokuhle has always been fascinated by the world of technology which paved her way to the universe of software development. Ever since she was introduced to this universe she became addicted to the Kinetic rhythms of JavaScript, NodeJs, React, MongoDB, MySql and Psql. She is also skilled in HTML and CSS, and JavaScript Frameworks are her favorite.

Projects

- **Booking Flight**
 - This is a back end App, in this task I was required to a rest API that has the following features:
 1. Add/Book Flight
 2. Get All Flight
 3. Get Single Flight
 4. Update/Edit Flight
 5. Delete Flight
 - <https://github.com/OkuhleM/Booking-flight-API>
- **Weather Location App**
 - This App show's you what the weather is like in your area.
 - <https://github.com/OkuhleM/weather-Location-App/tree/main/weather-location-app>
- **The Coding Ground Website**
 - In this task I was the project manager, I was required to design a website for our Academy with the assistance of my team members.
 - <https://okuhlem.github.io/TCG-WEBSITE/>
- **Mark Down Previewer**
 - This app consists of an editor and a previewer. A user types input in Markdown syntax into the editor and sees formatted output next to it in the previewer.
 - <https://github.com/OkuhleM/frontenddevelopment-projects/tree/main/MarkDownPreviewer>
